[Flash Introduction](#)

Our experience in manufacturing Surgical Instruments has been built-up since 1940. We have delivered the highest quality products by using best grade of materials and monitor all production process to guarantee our hand-crafted workmanship, always keeping up with the latest techniques.

Quality is more than the result of check and devotion, verified and certified by International Standards to design and manufacture all instruments under ISO 9001, EN 46001, ISO 13485 Quality Systems and compliance with cGMP of FDA's requirements and CE under EU directives. We ensure and get certified the ethical sourcing for production of goods and services by Social Accountability standards SA 8000.

We hope our 10th edition catalogue becomes a useful resource between our company and Surgical industry through out the World. All drawings herein, have been exclusively illustrated by us.

Our Surgical instruments are designed to the specific requirements of advance surgical procedures. Our network span welcome special customize design of instruments to your specified requirements.

We are highly thankful to all our patrons for their regular support.

M. Rafique
Chairman

PRODUCTION STAGES

The Era of Craftsmanship

FIRST GENERATION

1922

Our two forefathers joined hands and initiated to make Sword and Dragers for Royal Army. They were very skilled in Forging, filling and masters in Polishing and Sharpening.

1928

After the First World War, they started to manufacture SCALPEL and SCISSORS and did the job up to the complete satisfaction. The Dean of Mission Hospital Sialkot, encouraged to add some more Surgical Instruments in their production range.

1930

During early 1928, the other sons joined hands with their fathers and become a good team with enthusiasm. They worked hard and added some Haemostatic Artery Forceps, increasingly supply of the Surgical Instruments to other Hospitals in the territory as well.

1938

During the Second World War, they got a boost to include a substantial range of instruments to feed back the supply to the Royal Army.

H. Mehar Din
The Founder

The Era of Technology

SECOND GENERATION

1940

Mr. M. Abdullah established a sole proprietor ship company under the title of **TOWNE BROTHERS** for the production and supply of Surgical and Dental Instruments. He made a team of selected artisans and worked hard for the enrichment and expansion of the business with due enthusiasm. A target had been set by him to achieve a reputation in the international market to accomplish his ideas, with a hope that the next generation may grow further and could be able to introduce the skill and quality of the products.

H. M. Abdullah
The Renaissance

Steps Towards Success

M. RAFIQUE, Chairman

A. GHAFUOR RAFIQUE
Managing Director (C.E.O.)

THIRD GENERATION

1960

Mr. M. Rafique joined with his father and successfully expanded the export market to South Africa and England.

1961

Mr. M. Rafique became the Chairman of the Company and made extensive tours to Europe and established personal contacts with the buyers and enhanced sales volume and set-up the new avenues for export.

1980

Mr. A. Ghafoor Rafique and Mr. Shahid Rafique both the elder sons joined the company as Partners.

1985

The younger sons Mr. Zahid Rafique, Mr. Irfan Rafique and Mr. Imran Rafique, inducted as new Directors and company formulated as a private Limited company, hence became as **TOWNE BROTHERS (PVT) LTD.**

1994

TOWNE was the first Pakistani Company to comply with the requirements of cGMP of FDA's at Sialkot.

1996

TOWNE was the pioneer in achieving the certification of ISO-9002 as a manufacturer and exporter of Surgical & Dental Instruments in Pakistan. TOWNE also attained CE marking, which provides that the products manufactured are complying with EU directives.

2000

TOWNE up-graded the international standards and obtained the following certifications: ISO-9001, EN-46001, ISO-13485 & SA-8000, with a great innovation and dedication.

INTRODUCTION

Our experience in manufacturing of Surgical and Dental Instruments has been built-up since 1940, systematically, uncompromisingly and precisely. A second outcome is quality with the greater pace of technological advancement, and our deeper commitment to it. **Quality** is our watchword. We pursue it relentlessly from development through production to service and customer support. Precision is a very important factor in our process. We view precision not only in terms of manufacturing, but also in whole surgical procedure as an integrated system. Hence to develop the function more precisely, we share expertise opinion. All instruments are hand-crafted and minor deviation in size and weight may occur which does not effect the function and reliability of an instrument.

ACKNOWLEDGED EXPERTISE AND QUALITY BUILDING ON EXPERIENCE

Quality is not an accident; it is achieved as a result of continuous efforts, new in-puts to system and human resources. Quality requires a solid foundation through expertise of the people who work for us. That's why we put emphasis in production and training.

QUALITY STANDARDIZATION

Whatever your demands are, all instruments are precisely and clearly recorded to your stated & implied requirements. Our Quality Assurance Department has developed and documented standard operating procedures, standing work instructions, quality plans, & standard device master records. Our Research and Development (R&D) department is busy in designing the instruments as per the requirements of market and quality assurance standards; all specification, measurements and other data are registered in log books for Quality Assurance and other quality systems.

Focus on the future:

OUR CORPORATE GOAL

The World is shrinking, and in response, we are growing. With our staff, workforce, customers and our patrons, by extending our product range, methods, which is evident through our presence across the globe. We find solutions for particular application problems throughout the world. We will gladly develop with you, refining ourselves to the standards you would expect from TOWNE.

OUR COMMITMENT IS TO:

- Rise to the challenge of particular demanding standards.
- Development and manufacturing from samples or drawings.
- Selection of appropriate materials.
- Mechanical & Chemical properties are carefully maintained through Boil test, Copper-sulfate test to characterize the material to indicate corrosion.
- Passivation and other Chemical treatment are carried out to prevent from discoloration or rust.
- Technical drawings with measurements for all instruments.

QUALITY, VERIFIED AND CERTIFIED BY INTERNATIONAL STANDARDS

Surgical and Dental Instruments are designed and manufactured according to customer's stated and implied specifications

ISO 9001 Quality Systems Model for quality assurance in design development, production, installation and servicing.

EN 46001 Have been assessed and registered as meeting the requirements of EN 46001 and ISO 13485
ISO 13485 and ISO 13485

SA 8000 TOWNE have the confidence that our Company's ethical policy is effective. The Social Accountability standard (SA 8000) which ensure the ethical sourcing for production of goods and services. It sets the basic requirements and procedures regarding health and safety, the use of child labor, trade union rights. collective bargaining, remuneration and working hours, together with the management systems.

TOWNE is the pioneer to achieve SA 8000 certification in Pakistan, as well as the FIRST manufacturer of SURGICAL / DENTAL instrument in the World.

CE The CE mark provides you with the assurance that the product comply with the applicable EU directives.

cGMP TOWNE was the first company in Sialkot, to comply with the requirement of FDA's, during 1994.
